6P INTERNATIONAL NOW OFFERS ICS 402

INCIDENT COMMAND FOR EXECUTIVES

James Payne, President of **6P** International, is pleased to announce the latest addition to the training offered by **6P** International. ICS 402 – Incident Command for Executives is a 2-hour, high-level course aimed at Executives and Senior Officials who will most likely be serving as agency executives to whom the Incident Commander would report in an incident. Chief Executive Officers, Corporate Officers, Elected Officials, Facility Administrators and other executive level personnel will benefit greatly from taking the course, as will their business or agency. In keeping with the requirements to become NIMS compliant, ICS 402 provides the level of education required for executives to understand and appreciate the Incident Command System, without requiring them to immerse themselves in the details required of those who will serve on the Incident Management Team.

Course Content

The course provides an overview of the Incident Command System, its Organization, and Features. It also goes into Unified & Area Command, Coordination & Incident Management Assessment, and ICS Preparedness. Upon completion, the student will be awarded a Certificate of Completion from **6P** International.
